Tour Details

The European Organization for Nuclear Research known as CERN is an international organization whose purpose is to operate the world's largest particle physics laboratory. Established in 1954, the organization is based in the northwest suburbs of Geneva on the Franco–Swiss border, and has 21 European member states. The term CERN is also used to refer to the laboratory, which employs just fewer than 2,400 full-time employees, 1,500 part-time employees, and hosts some 10,000 visiting scientists and engineers, representing 608 universities and research facilities and 113 nationalities.
